WELCOME to the 2020 Frozen Jr

Interactive Program!

Please explore this program to find links to various pictures, videos, and of course, the soundtrack files of the show. If it's blue it links to something to see - maybe the costume the character would wear, designs that were drawn, videos of rehearsal footage - who knows! Have fun exploring!

DIRECTOR'S NOTES

This has been quite a year. A new building. A new performance space. The chance to build everything from scratch as we wanted it for the show we were planning to present to you this year. Of course, when everything changed and we weren't able to present *Frozen* as originally planned we decided instead of cobbling together a video of our eighth graders in homemade costumes trying to enact a show that is supposed to be told with magic, fantasy, and spectacle that a better way to honor this classes' immense talent was to create a soundtrack of the show.

When I was young - and records were still the primary way of listening to music - I spent hours listening to the soundtracks of shows like *The Sound of Music*, *Fiddler on the Roof*, and countless others. It was a rare treasure when you were able to find a set of records that has an entire show on it - lines and all. In today's digital world with its chaotic demands on our time music is almost always around us (social media, television, radio, etc.) but it is rare that we sit down and just listen.

I invite you to take a breather for a moment and close your eyes as you listen to the soundtracks and use your imagination to create the amazing world that we had (now have) in store for you. Just close your eyes and let everything go.....

SPECIAL THANKS

Tremendous appreciation goes to our amazing eighth graders who have been working on this tirelessly (and literally) during every spare moment of school from the time of auditions all the way through distance learning. They have truly embraced the show: singing songs in the hallways, practicing over Zoom calls, practicing choreography in PE on their rollerblades, diving into creating the sets, props, costumes, programs. etc. We've tried to include as much of it as we can in this program - and pray that all of the hours of recording themselves in their closets with their phones held two inches from their mouth is worth it! It is truly a special class and we are so grateful for their enthusiasm and dedication to this project.

Equal thanks goes to the Arts Team for putting the show together, the 8th Grade Advisors for their encouragement and helping out wherever they could, our MS Administration, Susan Custer, Operations

team, and Barr House and especially our amazing Maintenance team for all of their work in the planning of transforming the gym into a performance space which would have been amazing. We are sad you don't get to see the space as it was going to be - but just imagine a spectacle as you've never imagined and you will be on the right track!

And now, for the first time in...forever (at least at this school!) Enjoy BZ's interactive *Frozen, Jr.!!*
